

Center Mount Electrical

Mount your electrical and data in the center of your table top!

- Wiring runs down the inside of the column, exiting at the bottom of the column through a grommet hole cut to accommodate a standard wall plug.*
- Center Mount Electrical Spider comprised of a 3/16" thick steel sheet formed into a U shape and welded to the column for strength and stability.
- Column dimensions determined by the size of the top.
- Available on Starfire, Voyager (including Voyager Premium Solid Steel), AnyWay, Excalibur, and Discus.
- Bases available in any finish standard for the table line.

*Note: Floor access electrical column available on Discus, allowing for outlet to be mounted on the floor beneath the base. Please verify with local electrical codes.

Center Mount Electrical Table Lines & Sizes

Round	Starfire	Voyager*	Anyway	Excalibur	Discus
24	X	X		X	X
30	X	X	X	X	X

*Includes Voyager Premium Solid Steel

** With X Base

3 Standard Electrical Options to Choose From

- **Node:** Sleek, modern, low profile mount well suited for smaller tables. 3 configurations available combining electric and USB charging.
- **Cove:** Mounts flush with table top for unobtrusive appearance. 18 different configurations available.
- **Moire:** Maximum power and charging in a compact unit. Ideal for multiple users. 5 configurations available.
- Spill-resistant! Liquid runs straight through the unit without touching the electrical components, preventing shock, electrical fire, and damage to the unit or table.
- Don't see what you're looking for? Just ask...we'll work with you to find an electrical option for your project.
