

# MOBI

## MOBI

Mobi makes any collaborative environment a flexible environment. Mobi tables are manufactured with today's flexible settings in mind. With Berco quality and value, our goal is to provide a mobile and configurable design.

### Thermofused Tops and Edges

Specially offered on our Mobi line, thermofused tops use 3D laminates, which gives a higher level of durability than standard thermofoils. It gives added impact, marring and abrasion resistance as well as improved stain resistance. The flexibility of this product eliminates the need for T-molding and edge banding as it seals itself around the top and the sides.

### Table Base Specifications

FINISHES: 40+ standard powder coat finishes. Mobi bases offer the flexibility to carry 2 different colors on the same base. Custom finishes available. Please contact Customer Service for quotation.

Glides and Casters: All tables are equipped with standard 2" diameter glides. Locking casters are available as an option.

Mobi Base: Bases are equipped with powder coated 10" cast spider. Constructed of 2" (14 gauge) or 3" (16 gauge) columns from welded, flash controlled tubing. A machined solid steel center hub welded to 1 1/4" 16 gauge formed tubular steel base with welded insert to receive the casters or glides.

### Mobi Table Options

There are several options available on Mobi including:

- Nesting
- Special Height
- Adjustable Height
