

NOVUS

COLLECTION

The logo consists of a square border containing the word "NOVUS" in a large, bold, sans-serif font, with the word "COLLECTION" in a smaller, all-caps, sans-serif font centered below it.

NOVUS
COLLECTION

TRANSFORM YOUR SPACE

Build your Novus unit piece by piece to create your ideal configuration. Use the Novus Sketch Grid (page xx) to lay out all the pieces and submit for a quote, or choose your starter, add-on, and end stacks then finish it off with accessories including corners, bridges, shelves, display boxes, cabinets, and more.

While Novus configurations are virtually unlimited, you can also make it easy by choosing from pre-priced Novus typical configurations (pages xx-xx).

Need more flexibility? Build a Novus Mobile unit up to 3 blocks high and 4 blocks wide on casters.

Novus ships flat pack, with the exception of corners and bridges, which are fully welded units. Accessories also ship pre-assembled and ready to set in place in your unit.

Single Width Blocks:

Exterior: 17" w x 17" d x 17" h

Interior: 15" w x 15" d x 15" h

Double Width Blocks:

Exterior: 32" w x 17" d x 17" h

Interior: 31" w x 15" d x 15" h

Choose from 12 standard powder coats, 12 standard laminates, and 36 standard fabrics for your Novus frame and accessories. See pages xx-xx for finish swatches.

NOVUS STARTER STACKS

The Stack at the far left end of your Novus unit is the Starter Stack. Starter Stacks consist of 2 vertical columns (from 1–5 blocks high) and the appropriate number of horizontal cross bars. The starter (far left) vertical column differs from other vertical columns in that it does not have any slots on the exterior edge, giving the end of your Novus configuration a clean, finished look.

Choose your Starter Stack based on how many blocks are in the stack directly to its right. If the Stack to the right is equal to or lower than the Starter Stack, choose a 5-, 4-, 3-, 2-high Starter Stack. If the Stack to the right is taller than the Starter Stack, your Starter Stack will reference the height of the Starter Stack and the height of the Add-On Stack to the right (example: if your Starter Stack is 4-high and the Add-On Stack to the right of the Starter is 5-High, select the 4-5 High Starter Stack).

Starter Stacks are available in single or double width.

NOVUS ADD-ON STACKS

Add-on Stacks are the stack(s) between your Starter Stack (far left end of the unit) and your End Stack (far right end of the unit). Add-On Stacks include 1 vertical upright and the appropriate number of horizontal cross bars to connect to it to the Stack to its left.

Choose your Add-On Stack(s) based on how many blocks are in the stack directly to its right. If the Stack to the right is equal to or lower than the Add-On Stack, choose a 5-, 4-, 3-, 2-, or 1-high Add-On Stack. If the Stack to the right is taller than the Add-On Stack, your Add-On Stack will reference the height of the Add-On Stack and the height of the Stack to the right (example: if your Add-On Stack is 3-high and the Stack to the right of the Add-On Stack is 5-High, select the 3-5 High Add-On Stack).

Add-On Stacks are available in single or double width.

NOVUS END STACKS

The End Stack is the Stack at the far right end of your Novus unit. End Stacks include 1 vertical upright and the appropriate number of horizontal cross bars to connect to it to the Stack to its left. The vertical upright has no slots on the outside edge so that the end of your Novus unit has a clean, finished look.

End Stacks are available in single or double width.
