

## 

# 2024 Price List 

EFFECTIVE 11/15/23

## GENERAL Terms and Conditions

Terms and Conditions are effective for all shipments beginning January 1, 2015.

## Delivered Pricing

Regular ground transportation only dock to dock - via carrier of Berco's sole discretion. Any additional transportation charges such as, but not limited to, non-standard routing, authorized split shipments, re-consignment, re-delivery, or storage will be the sole responsibility of the customer. Alaska, Hawaii and Puerto Rico prices include shipping to port of embarkation. Additional fees and taxes will be quoted for each specific order.

## Small Order Fee

All orders less than $\$ 10,000$ list are subject to a $\$ 399$ net charge for US destinations.

## Crating Fee

Any finished goods requiring crating to protect for damage will incur a $\$ 200$ net fee per crate.

## Table Installation And Assembly

Table installation and assembly is NOT included in Delivered Pricing. Please arrange for installation and assembly with your Berco Dealer or Representative.

## Special Shipping Requests

Any special requests such as "Inside Delivery" will incur additional shipping charges and will be the responsibility of the customer. Please call Customer Service for a quotation. Any special requests made by the customer directly to the carrier will be the sole responsibility of the customer.

## Routing

Berco reserves the right to use the carrier of its choice at their sole discretion.

## Customer Designated Freight Carriers

For customers designating their own freight carrier, freight charges shall be collect or third party billing. A 5\% discount from the net price will apply, with the exception of "Small Orders" as defined in the Small Order Delivery Fee Section. All freight will be subject to the actual freight class. Berco will not be responsible for any billing disputes with shipments FOB Factory. Additionally, any damages or short shipments will be the sole responsibility of the customer with shipments FOB Factory.

## INTERNATIONAL SHIPMENTS:

Please contact Customer Service for quotation (888) 772-4788.

## GENERAL Terms and Conditions (continued)

## Cancellations and Changes:

Cancellations or changes will not be accepted once a purchase order has been acknowledged without express written approval from Berco. Requests for order cancellation or change must be received in writing. If cancellation is approved, a processing fee of $25 \%$ of the original purchase amount will be assessed. All non-standard orders for special construction or special finish cannot be cancelled once production has started or materials have been ordered.

## Terms of Sale

All prices herein are list prices, freight-prepaid, F.O.B. origin to the 48 contiguous states. Orders to Alaska, Hawaii and Puerto Rico are shipped to port of embarkation.

Illustrations, specifications, and prices are based on the latest information at the time of publication. The right is reserved to make changes at any time without notice regarding pricing, finishes, materials, specifications, and models, and to discontinue models and finishes.

Berco is not responsible for omissions or errors in typography or photography.

All orders are subject to acceptance by Berco. The purchaser is responsible to submit complete orders. Incomplete or incorrect orders will be processed upon reception of the complete information and normal production lead-time will be applied from the date that the complete information is received.

Payment terms: $1 \% 15$ days, Net 30 Days. A $50 \%$ deposit prior to order processing must accompany all orders for customers who have not established open account terms with Berco.

Berco does not allow any unearned discounts. All unearned discounts will be charged back to the customer. Interest will be collected at the legal maximum rate on all past due accounts.

Berco does not allow C.O.D. shipments. Credit card payments are subject to $3 \%$ processing fee.

## Quotes

All Berco price quotations are estimates only. Applicable taxes and other charges may not be included. A quote may be withdrawn at any time. In the event of errors or omissions, the offer will be void and will be corrected upon request. All quotes for custom-manufactured items subject to change pending sign-off on final design drawings. All clerical errors are subject to correction. Customer acceptance of a Berco Quote should be made by issuing a Purchase Order.

## GENERAL Terms and Conditions (continued)

## New Accounts

Possession of the price list does not constitute an offer to sell. Please contact Berco for your area representative or visit our website, www.BercoDesigns.com.

## Order Processing

Purchase Orders must be received in writing. This includes orders sent via U.S. Postal Service, fax and e-mail. All orders received via e-mail must contain either a digital signature or a signed purchase order in PDF format. Duplicate purchase orders not marked "CONFIRMATION" are the sole responsibility of the customer. Purchase Orders must be complete and pricing correct.

## Sales Order Acknowledgement

Important: All orders are manufactured and invoiced according to the Sales Order Acknowledgement. Please review your acknowledgement and immediately report any discrepancies to Berco. Modifications to acknowledged orders are not allowed without express written authorization. The details appearing on this acknowledgment will describe the items to be shipped to the purchaser and the ready to ship date (not the actual shipping date). It is the purchaser's responsibility to verify that the acknowledgment information is correct. If not, the purchaser must notify Berco within 48 hours in writing. Failure to provide corrections within 48 hours could be subject to extra charges (see Cancellations and Changes).

## Modifications

Modifications to our standard items are available. Call Customer Service for assistance and pricing. Engineering charges will be quoted on the initial purchase, if applicable.

## Taxes

Applicable sales and other taxes will be charged separately unless the proper exemption certificate for such taxes is supplied.

## Storage Of Goods

If requested, Berco will endeavor to store merchandise for the purchaser. For rates, please contact our Customer Service department.

## Repairs

Berco will not allow charges for repairs and deductions for repair costs without prior written authorization. Customer Service will provide the necessary authorization forms and instructions for repairs.

## Returns

Returns will not be accepted without prior written authorization by Berco. Berco Customer Service will provide the necessary return authorization forms and Bills of Lading. Returns that are unauthorized and not accompanied by the required documentation and Bills of Lading will be refused. The decision to allow product to be returned is at Berco's sole discretion.

A restocking charge of $25 \%$ of the original purchase amount will incur on standard items authorized for return provided all goods are in perfect condition. All freight charges incurred in the return will be the sole responsibility of the customer.

## TITLE TRANSFER

## Freight Policy

Legal title of the merchandise transfers to the Buyer upon acceptance and pickup by the Freight Carrier from the factory.

## OVERVIEW

Berco takes great care to make sure each shipment arrives in perfect condition. On occasion, there is damage that occurs during shipment. If the receiving party follows the procedures outlined below, Berco will assist in filing the freight claim with the Carrier and will do everything possible to eliminate any additional expense incurred by the Buyer. Failure to follow the procedures below can result in the Buyer taking responsibility for the freight claim and any associated costs to replace/repair damaged product.

It is strongly advised that the Buyer open and inspect every item before the Carrier departs. If the Buyer chooses not to inspect every item at the time of delivery, Berco cannot guarantee any claims. In the event the Buyer does not open and inspect items at delivery, the Freight Bill should be signed as follows: No visible damage noted. Any concealed damage to be reported within 5 days. Buyer Signature \& Driver Signature

## VISIBLE DAMAGE / MISSING ITEMS POLICY \& PROCEDURE

It is the Buyer's responsibility to visually inspect all items when they are received - before the Carrier departs. The following process should be followed for any items that appear to have visible damage on the outside of the carton (crushed corner, punctures, scuff marks on packaging, etc.):

1. Open all cartons.
2. Inspect cartons carefully. Confirm receipt of all items against Packing List.
3. Note on the Carrier's Freight Bill the missing items and/or specific damage identified
4. Sign Freight Bill and get driver to sign as well - make a copy for your records
a. Freight Bill to be signed as follows: Damage to items XXX (list each item) as shown to driver. Missing items XXX (list each item). Any concealed damage to be reported within 5 days. Buyer Signature \& Driver Signature
5. Take digital pictures of the damage (often times the driver will take the necessary pictures) including:
a. Damaged carton/packaging (internal and external, if applicable)
b. Damaged contents
6. Please hold damaged product and packaging in the event the insurance company needs to review
7. Complete Berco's Damage Report Form and submit to Customer Service

## Freight Policy (continued)

## CONCEALED DAMAGE POLICY \& PROCEDURE

All freight carriers strictly require that concealed damage claims be filed within 5 days of accepted delivery. The carton and damaged unit(s) must be located at the location matching the original delivery address for Carrier inspection. The following procedures must be followed for concealed damage:

1. Once damage is found, stop immediately and take digital pictures:
a. Damaged item as it sits in the box
b. External and internal carton/packaging
c. FAILURE TO TAKE PICTURES AT THIS STAGE WILL RESULT IN A DENIAL OF CONCEALED DAMAGE CLAIM. ONCE ITEM IS INSTALLED, NO CONCEALED DAMAGE CLAIM MAY BE FILED.
2. Complete Berco's Damage Report Form and submit to Customer Service
3. Please hold damaged product and packaging in the event the insurance company needs to review
4. Berco cannot guarantee any Carrier claim settlement on concealed damage. In the event the above is not strictly followed, the Carrier will not even accept the claim for review.

## LABOR POLICY

Labor reimbursement for repairs, replacements or storage due to freight damage is not covered by Berco's warranty plan. Invoices for labor charges on damaged or missing items will not be honored unless approved in advance by VP of Sales. If approved, labor is limited to the following maximum amounts: Table: \$15; Top or Base only \$10; no labor for caster or glide replacement. Any approved labor will be issued as a credit on account.

## PAYMENT HOLD

Only damaged items that have been properly reported will be authorized for "payment hold" until final resolution. Remittance for balance of non-damaged items must be made within invoice terms to avoid finance charges.

## STORAGE POLICY

Berco cannot warranty items in storage under the following circumstances:

1. Storage areas that are not temperature and humidity controlled.
2. Damage claims on items held in storage for more than 15 days from delivery acceptance

## FREIGHT PICK UP POLICY

If Buyer selects to pick up freight, they will be responsible for selecting carrier, negotiating rates and terms (including insurance) and remit payment directly to carrier. Buyer agrees to comply with all state and federal laws, rules and regulations regarding shipment of goods from Berco. Customer will be solely responsible for any and all freight claims. Customer assumes all liability associated with shipment. Customer will sign Berco's "Customer Arranged Freight Election \& Liability Waiver" form.

## HIDDEN DAMAGE REPLACEMENT

In the event that there is hidden damage that is not covered by the Carrier, Berco will replace the item at the following charge: net price PLUS actual shipping cost of replacement LESS $50 \%$. Standard payment terms will apply. Labor will not be paid for hidden damage replacement.

## Warranty Policy

## CONDITIONAL LIFETIME WARRANTY (subject to exceptions below)

Berco warrants its manufactured products are free of defects in design, material and workmanship for as long as the original purchaser owns them. If written notice of the defect is given to Berco within the applicable warranty period, Berco will repair or replace with comparable product, at Berco's choice, without charge to the original purchaser, which fails under normal use as a result of such defect.

## Exceptions

The following are exceptions from the lifetime warranty:

- One Year Warranty: Laminate self-edges, Veneer Tops, Soft Molded Edge Tops, Rainbow Tops, Quarry Resin Tops, Hospitality Chairs \& Bases.
- Five Year Warranty: Millwork and other custom fabrication.
- Twelve Year Warranty: Booths
- Items not manufactured by Berco are covered by the Manufacturer Warranty, including: Chairs, Adjustable Height Pedestals, electrification, network accessories, laminate and solid surface material.
- Exclusions From Warranty:
- Normal wear and tear
- Customer's own material (COM)
- Any product that has been abused, altered or subjected to any use other than that which was originally intended
- Any product cleaned with a solvent-based cleaner
- Products that were not installed, used, or maintained in accordance with product instructions and warnings
- Matching of color, grain and texture of wood due to natural variations, which cannot be controlled At Berco's sole discretion, we will repair or replace any item determined by Berco to be defective as a result of manufacturing defects. In no event shall liability under this warranty exceed the current depreciated price of the defective product.

BERCO'S LIMITED WARRANTY IS PROVIDED IN LIEU OF ALL OTHER WARRANTIES EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION, WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ALL OF WHICH ARE HEREBY SPECIFICALLY DISCLAIMED. BERCO WILL NOT BE RESPONSIBLE FOR CONSEQUENTIAL OR PUNITIVE DAMAGES. BERCO NEITHER ASSUMES NOR AUTHORIZES ANY PERSON TO ASSUME FOR IT ANY OTHER OBLIGATION OR LIABILITY IN CONNECTION WITH THE SALE OF ANY ITEM OR ANY PART THEREOF.

## Labor

Labor reimbursement for repairs, replacements or storage due to warranty issues is not covered by Berco's warranty plan. Invoices for labor charges on warranty items will not be honored unless approved in advance by VP of Sales. If approved, labor is limited to the following maximum amounts: Table: \$15; Top or Base only $\$ 10$; no labor for caster or glide replacement. Any approved labor will be issued as a credit on account.

## Non-Obsolescence Statement

Berco is committed to providing customers with products of comparable aesthetics and function for the life of the warranty period. Despite an effort to maintain full availability of our products, components or materials may become discontinued by our suppliers or by our continuing commitment to produce outstanding quality products. This includes, but is not limited to, finishes, accessories, laminates, and other functional components. Products qualifying for replacement under warranty will be replaced with products of most similar function or aesthetics in the event the identical product is no longer available, at the sole discretion of Berco. In no instance will Berco replace items not qualifying for warranty replacement due to not matching a warranty replacement item.

## Legal Disclaimer

This warranty is the Customer's sole remedy for product defect. This warranty does not cover damage by a carrier in transit. Berco makes no warranties, including the implied warranties of merchantability or fitness for a particular purpose, other than the expressed warranties contained herein. There are no other warranties express or implied. Berco shall not be liable for consequential or incidental damages arising from any product defect.

## Laminate Surfaces, T-Mold and PVC Edges

Clean with a mild soap solution and rinse with clean water. Wipe the entire surface, moving with the pattern; follow this by wiping with a clean, dry soft cloth.

## Wood Edges and Veneer Surfaces

Clean all surfaces frequently with a soft cloth dampened with water. Move the cloth in the direction of the grain. Continue wiping until the wood surface is dry.
Use a soft cloth to immediately remove any liquids that come in contact with wood surfaces. Always blot to absorb spilled liquid, and lift objects to move. To prevent scratching never pull or "scoot" items across the finished surface.

To ensure a lasting finish and protect your furniture from surface damage caused by sharp objects and pens; place a protective pad or glass top on the surface. If using protective glass, place spacer pads under each corner to allow the wood surface to "breath".

Avoid exposure of furniture to extreme heat or cold, wide humidity variances, and strong sunlight. Do not use or expose furniture to harsh solvents (cleaners with high concentrations of ammonia, etc.). Cleaners of this type will cause the finish to deteriorate.

## Powder Coat Surfaces

Clean surface with a mild soap solution. Rinse with a soft cloth dampened with clean water.

## Maintenance of Mechanical Parts

For "flip", "folding" and "nesting" tables (the base mechanisms), periodically clean lint and or debris from the moving parts. Do not apply lubricant. Mechanisms have been designed and tested not to require lubricant under normal conditions.

## Soft Molded Urethane Edges

Clean edge with self-cleaning wax. For light stains use household cleaner and rinse off with damp cloth. For tough stains apply a damp paste of baking soda. Let stand for a minute and wipe clean. To disinfect, wipe with a diluted bleach solution and rinse off with damp cloth.

## Rainbow Resin Edge

Cleaning - dampen a soft cloth with a mild soap and water solution and gently cleanse.
To restore the luster to the edge, a light application of a high-grade furniture wax is recommended.
Precaution. Do not freeze. Do not use abrasive pads; avoid placing hot objects or cigarettes directly on the edge, as damage may occur.

## Solid Surface

Solid Surface will maintain its "like new" appearance for years, if the following guidelines are observed: Heat - Caution - Tabletop may be damaged by placing hot pans from the oven or cook top directly on the table.
Cleaning - Use soap and water; apply with sponge, and towel dry to eliminate water spots.
To Renew Surface - Go over entire surface with a non-abrasive cleaner and a white Scotch-Brite TM pad. Wash with soap and water, and towel dry, to eliminate water spots.

Cuts and Scratches - To remove cuts and scratches, sand with a block using a 220 or 240 grit sand paper until the cuts are gone.

Chemicals - Solid Surface is very resistant to most household cleaners, but should be protected from industrial cleaners, such as paint removers, paint brush cleaners, metal cleaners, oven cleaners, acetones, nail polish removers, and acid drain cleaners.

## Ordering Information

It is easy to place and order for a Berco table. Using Berco Smart-Codes (see "Smart Code" section), you can place an order as follows:

| DESCRIPTION | EXAMPLE |
| :---: | :---: |
| 1. Select TABLE MODEL number | VS1 |
| 2. Select TABLE TOP SHAPE | REC |
| 3. Select TABLE SIZE | 3060 |
| 4. Select Top SURFACE |  |
| 4.a. Manufacturer | Wilsonart |
| 4.b. Number and Finish | 4622-60 |
| 4.c. Color Description | Grey Nebula |
| 5. Select Top EDGE PROFILE | L-21 |
| 6. Select Top EDGE COLOR | E07 |
| 9. Select Any Applicable OPTIONS | Refer To Price List |
|  | For Available |
|  | Options |
| 7. Select BASE STYLE | NST (nesting) |
| 8. Select BASE FINISH | S15 |

## TABLES

## Table Top Specifications

When it comes to tops, the options are limitless. Berco offers every imaginable surface option, and if you don't see what you are looking for in our standard collection, chances are our Customer Service team can find a solution to meet your specific needs.

Standard Core: Standard core is $1-1 / 8^{\prime \prime}$ thick $45 \#$ industrial grade particleboard.
Laminate Tops: Tops are laminated under continuous pressure using cold PVA glue with HPL laminate and balanced with backing sheet. Berco offers dozens of standard laminate selections from the Wilsonart collection (see "Standard Laminate Table Top Finish Option" section). Please consult Customer Service for pricing and availability for Formica, Nevamar, Pionite, and other brands of laminates.

Veneer Tops: Veneer is $0.020^{\prime \prime}$ thick, select quality, rotary cut or plain sliced. All faces are book matched and balanced. Panels are backed with a commercial balanced backer. Veneer tops are finished with a multicoated system of catalyzed, semi-gloss varnish. Standard veneer finishes include maple, oak, cherry and mahogany (see "Standard Wood Finish Options" section) and we will be happy to work with you to find a more exotic wood finish or custom color - please consult Customer Service for pricing and availability.

Solid Surface Tops: Solid surface is the most durable table top material. Ideal for high-traffic spaces, solid surface is a non-porous product that is heat and stain resistant. Solid surface provides a high-end look with long-term durability. Berco works closely with most major solid surface providers including, Corian, LG Surfaces, Wilsonart, Avonite and Hanex. Please consult Customer Service for pricing and availability.

Resin Table Tops: Resin is a heavy-duty material designed to withstand wear and tear. It has a contemporary styling that is easy to customize with a school or company logo. Resin tops are also chemical resistant and easy to clean. Berco offers unlimited color options to meet your specific needs. Our standard resin colors are found in the "Standard Resin Finish Option" section. Please consult Customer Service for pricing and availability.

Lightweight Tops: Our lightweight solid core material is 1 " thick, and available on select stationary and folding tables at an additional charge. These tops are approximately $30 \%$ lighter than our standard tops. Lightweight tops are limited to P-12 PVC edges.

Edging: Offered in a variety of edge styles including vinyl, PVC, wood and resin. See "Edge Style" and "Edge Finish Colors" sections for more information on standard offerings. Custom options also available consult Customer Service.

## TABLE HEIGHT

All tables are $29^{\prime \prime}$ overall height within industry tolerances, including top and pedestal. Special heights are available.

## TABLE ASSEMBLY

Stationary and flip top tables (non-solid surface or metal inserts) come equipped with Phillips wood screws for attaching pedestal to table top. See specific "Table Assembly" section for more detailed assembly instructions. General table assembly information is as follows:

Stationary tables: Pedestal and top shipped separately.
Folding tables: Legs factory installed at no additional charge.
Flip-Top tables: Pedestal and top shipped separately.
Nesting tables: Pedestal and top shipped separately. Top includes Nesting structure already attached to it.

## ANYWAY

## ANYWAY

AnyWay Tables were designed to have a low profile foot that creates the ideal comfortable resting place for your feet, in addition, the aesthetic of this base allows its design to work in any architectural environment.

Table Pedestal Specifications Finishes: Available in 40+ standard powder coat finishes. Our unique mechanical construction enables a flawless seam when mixing column finishes with any base finish. Custom finishes available. Please contact Customer Service for quotation.

Glides and Casters: All tables are equipped with 2" diameter glide with brushed stainless steel cover over black ABS foot. The stem is M10 and 15 mm long. The glide is suitable for carpet, as well as hard floors. High quality twin wheel locking casters are offered as an option.

Stationary Table Pedestals: Constructed of cold finished flat steel $1 / 4^{\prime \prime} \times 2^{\prime \prime}$ foot, attached to a $2^{\prime \prime} 14$ gauge steel or $3^{\prime \prime} 16$ gauge columns with powder coated 10 " locking cast spider; larger pedestals equipped with $15^{\prime \prime}$ cast spider, machined for column recess to insure levelness.

## AnyWay Folding Table Leg Specifications

Our patented spring loaded folding mechanism is fully riveted to a steel mounting plate. Vinyl bumpers are integrated into the mechanism allowing for a non-marring, 3-1/2" stacking height. Equipped with molded release handle and integral catch holds leg in folded position.

## AnyWay Table Options

There are several options available on AnyWay including:

- Nesting
- Folding
- Flip Top
- Special Height
- Adjustable Height
- Center Mount Electrical Column

## CORE

## CORE

Core Tables were developed as a different way to build a Parsons table. Created using a mix of materials of steel along with laminate or wood, the Core table offers the ability to create more interesting finish options for your space. In addition to the creative aspect of the product, by using a steel structure, Core can achieve greater lengths of table sizes compared to other tables in the market. And, because it ships knocked down, it can more easily be delivered into a building and then assembled once in the final location.

## Table Specifications

Finishes: Available in 40+ standard powder coat finishes. Custom finishes available. Contact Customer Service for a quote.

Construction: Top is supported with a four leg steel frame. Frame is structurally supported to provide reinforcement and the ability to span large distances.

Top Surface: Comes as standard in a $3 / 4^{\prime \prime}$ thick laminate with either self edge or 1 mm (limited to 19 colors) pvc edge band. Tops are also available in solid surface along with wood veneer (limited selection) or stone. Please note on stone tops there may be limitations to the size of the table based on the weight of the top. Contact customer service to review your requirements.

End Panels are available in laminate, veneer, and solid surface (slab end only for solid surface). We do not offer stone end panels as an option.

Glides: All tables are equipped with 1" diameter glides with stainless steel cover. The glide is suitable for carpet as well as hard floors.

Electrical Options: Available with either our Villa or Cove electrical units, they are offered in predetermined locations as a standard. If you don't see the electrical configuration you like or don't want it in the standard position, no problem, just contact Customer Service to come up with your solution.

See "Electrical Placement" section for standard placement of electrical.

Warranty: Berco warrants its manufactured products are free of defects in design, material and workmanship for as long as the original purchaser owns them. For self edge laminate products, the warranty on the self edge is one year. Millwork items carry a five year warranty. See our warranty page for a full explanation.

## CORE - END STORAGE COMPONENTS

End Units: Designed for the end of a Standing Height Table, these units come in 36 " and $42^{\prime \prime}$ widths. Below are standard options. If you don't see something you need, please contact Customer Service for a quote.

Cubbies

Open With Adjustable Shelves

- 4 adjustable shelves

Coat Cabinet - No Doors

- Includes coat hooks

## DISCUS

## DISCUS

The classic flat Discus base provides a non-intrusive place for the eye (and foot) to rest. Perfect for dining facilities or meeting rooms, Discus adds a timeless, elegant look to your space. Discus tables have 6 adjustable glides, ideal for placing tables together, even on uneven surfaces.

## Pedestal Specifications:

Finishes: Available in 40+ standard powder coat finishes. Chrome plated finishes are offered at an additional charge. Our unique mechanical construction enables a flawless seam when mixing column finishes with any base finish. Custom finishes available. Please contact Customer Service for quotation.

Glides and Casters: All Discus bases come with 6 adjustable 1" diameter stainless steel glides. CASTERS NOT AVAILABLE.

## Pedestal Specifications

Flat-shaped base features 18 gauge spun steel with a specially designed weight for maximum stability. 3" and 4" columns are 16 gauge. All columns are welded flash controlled steel tubing square cut to insure levelness. Cast iron spiders are machined for column recess and bolted with $1 / 2^{\prime \prime}-13$ steel threaded rod.

## Discus Table Options

There are several options available on Dlscus including:

- Flip Top
- Center Mount Electrical Column
- Floor Access Electrical Column
- Special Height

## ENCORE

## ENCORE

The Encore table series was designed as a cost-effective Parson's table with nice aesthetic details. Starting with the ability to use any laminate for greater design flexibility, then having mitered corners to make an incredibly clean aesthetic with the laminate matching up at the corners. The Encore is a perfect table for conference, dining, meeting, café, and library applications.

## CONSTRUCTION:

The inner skeleton of the Encore is comprised of $3 / 4^{\prime \prime}$ multi-ply hardwood frames that extend from the bottom of one end panel, across the entire bottom of the table top, and to the bottom of the other end panel to give the table the strength and avoid the warping of the top. From that point an additional sheet of $3 / 4^{\prime \prime}$ multi-ply hardwood is attached to the inside and outside of the end panels and the top, and those items are covered with the laminate of your choice. The underside of the table is a laminated removal panel that allows access to the inner skeleton to access electrical if required.

## THICKNESS OF TOP AND END PANELS:

A standard Encore table has a $3^{\prime \prime}$ thick top and end panels, if adding electrical into the top, appropriate grommets will be cut into the tops for the electrical. If electrical is specified to go into the table, then the overall thickness of the top and end panels grow to $41 / 2^{\prime \prime}$ to allow space for the electrical unit.

## SHIPPING:

Please note that the Encore table SHIPS COMPLETELY ASSEMBLED, so please ensure that the table will fit through doorways and into freight elevators prior to ordering.

** NOTE 1: If electrical is added, the thickness of the Encore table increases from 3" to 4-1/2"
** NOTE 2: Encore Tables Are All One Piece Except if Noted - Please Confirm Dimensions Will Fit Through Door Openings Before Ordering

## EXCALIBUR

Excalibur tables were developed to offer you quality and styling. Stationary pedestals made of Flat Solid Steel allow the ultimate in a base foundation with unparalleled durability.

## Table Pedestal Specifications

Finishes: Available in 40+ standard powder coat finishes. Chrome plated finishes are offered at an additional charge. Our unique mechanical construction enables a flawless seam when mixing column finishes with any base finish. Custom finishes available. Please contact Customer Service for quotation.

Glides and Casters: All tables are equipped with $1^{\prime \prime}$ diameter stainless steel, rubber cushioned glides with $1 / 2^{\prime \prime}$ long stem, fully threaded into solid steel base. Optional styles of glides and casters available at an additional charge.

Stationary Table Pedestals: Base of pedestal constructed of cold finished flat solid steel $3 / 4^{\prime \prime} \times 2-1 / 4^{\prime \prime}$. Fully MIG welded for maximum support. Smaller pedestals equipped with powder coated 10" locking cast spider; larger pedestals equipped with $15^{\prime \prime}$ cast spider, machined for column recess to insure levelness. 2" diameter (14) gauge) and $3^{\prime \prime}$ diameter ( 16 gauge) columns constructed from welded, flash controlled tubing. Factory assembled with $1 / 2^{\prime \prime}-13$ threaded steel rod and flange nut at $60 \mathrm{ft} / \mathrm{lb}$ torque. Standard with square ends. Beveled ends are available at an additional charge.

## Excalibur Table Options

There are several options available on Excalibur including:

- Nesting
- Flip Top
- Center Mount Electrical Column
- Adjustable Height
- Special Height

## IQ PLUS

## iQ PLUS

Our iQ Plus is developed solely with the goal of aesthetics, quality and value contributing to the finished product. iQ Plus tables can be configured to be one of the most environmentally friendly tables in our industry. This is achieved by using a laminated core top surface paired with pedestals of recycled aluminum.

## Pedestal Specifications

Finishes: Over 40+ powder coat finishes are offered. Our unique mechanical construction creates a flawless seam when matching column finishes with any base finish. Plastic inner column cover finished in S10 Ebony.

Glides and Casters: All tables are equipped with 2" diameter glides with brushed stainless steel cover over black plastic foot. The stem is M 10 and 15 mm long. The glide is suitable for carpet, as well as hard floors. Our high quality twin wheel locking casters are offered as an option.

Pedestal Specifications: The foot is aluminum die casting. Column is extruded aluminum. Stationary pedestals feature an aluminum die cast spider support. The foot, column, spider or flip-top are attached together with (2) $3 / 8^{\prime \prime}-18$ threaded steel rod and flange nuts at $35 \mathrm{ft} / \mathrm{lbs}$ torque.

Folding Mechanism: Our patented spring loaded folding mechanism is fully riveted to a steel mounting plate. Vinyl bumpers are integrated into the mechanism allowing for a non-marring, 3-1/2" stacking height. Equipped with molded release handle and an integral catch holds leg in folded position. Folding legs feature the same column housing as iQ stationary attached to Berco's patented folding mechanism.
iQ Plus Table Options
There are several options available on iQ Plus including:

- Folding
- Flip Top - iQ Plus uses a single-point-release bridge with 2 flip tops instead of a nesting structure (for rectangular tables only)
- Special Height

## iQ PLUS TABLES - (VENEER)

## MOBI

## MOBI

Mobi makes any collaborative environment a flexible environment. Mobi tables are manufactured with today's flexible settings in mind. With Berco quality and value, our goal is to provide a mobile and configurable design.

## Thermofused Tops and Edges

Specially offered on our Mobi line, thermofused tops use 3D laminates, which gives a higher level of durability than standard thermofoils. It gives added impact, marring and abrasion resistance as well as improved stain resistance. The flexibility of this product eliminates the need for T-molding and edge banding as it seals itself around the top and the sides.

Table Base Specifications
FINISHES: 40+ standard powder coat finishes. Mobi bases offer the flexibility to carry 2 different colors on the same base. Custom finishes available. Please contact Customer Service for quotation.

Glides and Casters: All tables are equipped with standard 2" diameter glides. Locking casters are available as an option.

Mobi Base: Bases are equipped with powder coated 10" cast spider. Constructed of 2" (14 gauge) or 3" (16 gauge) columns from welded, flash controlled tubing. A machined solid steel center hub welded to $11 / 4^{\prime \prime} 16$ gauge formed tubular steel base with welded insert to receive the casters or glides.

## Mobi Table Options

There are several options available on Mobi including:

- Nesting
- Special Height
- Adjustable Height

NOMAD

## NOMAD

With its unique splayed leg design, the Nomad series is a different approach to the Parson style table. Available in $30^{\prime \prime}, 36$ ", and $42^{\prime \prime}$ heights and lengths up to 120 " as standard giving you 23 different sizes to choose from for your meeting needs. Standard top options include laminate, butcher block, and solid surface.

Table Base Specification: Finishes of 40+ Standard powdercoat finishes.

Glides and Casters: All tables are equipped with leveling glides as standard, locking casters are available as an option.

Nomad Base: Constructed of a $1.5^{\prime \prime} \times 3^{\prime \prime}$ fully welded 14 gauge steel tubing legs with a $6^{\prime \prime} \times 6^{\prime \prime} \times 1 / 8^{\prime \prime}$ thick top plate to attach to your worktop. Each table includes a foot rest/cross bar to insure structural integrity.

PALISADE

## PALISADE

Palisade Tables are manufactured with Berco's goal of quality and value and are ideally suited for use in a myriad of settings including corporate training rooms, cafeterias, educational settings and healthcare environments. Your choice of options make our Palisade tables adapt to your specific requirements.

Table Pedestal Specifications Finishes: Available in textured standard powder coat finishes. Custom finishes available. Please contact Customer Service for quotation.

Construction: Made with a $11 / 4^{\prime \prime} 16$ gauge cold rolled steel tubing welded to a $6 \times 6.2^{\prime \prime}$ thick steel mounting plate designed to place the legs into the corner of the tops. For tops greater than $48^{\prime \prime}$ length, a table stiffener is added to diminish the possibility of top warpage. Legs are shipped, assembled, and ready to attach to the tops.

Glides and Casters: All tables are equipped with 2" diameter glides with brushed stainless steel cover over black plastic foot. The stem is M 10 and 15 mm long. The glide is suitable for carpet, as well as hard floors. Our high quality twin wheel locking casters are offered as an option.

## PLATEAU TABLES

## PLATEAU

The Plateau table series is designed to create an elegant but functional base for your tables. With its low profile square disk base design and square column it has a look designed for today's environments.

Table Base Specifications:
Finishes: Offered in 40+ standard powder coat finishes.
Glides: All tables are equipped with 1 " diameter leveling glides with a plastic foot that can be used on all floor surfaces that allow $1 / 4^{\prime \prime}$ of adjustment.

Base Specifications: Bases feature $3 / 8^{\prime \prime}$ thick steel plate with 4 adjustable glides that has a 10.50 mm corner radius. The column is a $3^{\prime \prime} \times 3^{\prime \prime}$ square tube with a $9^{\prime \prime} \times 9^{\prime \prime}$ flat top plate to attach to table tops. Standard base dimensions are $17{ }^{\prime \prime}, 22^{\prime \prime}$, and $27^{\prime \prime}$ square.

PLATEAU TABLES - (LAMINATE - PVC EDGE)

PLATEAU TABLES - (VENEER)

## SENSE

## SENSE - QUICK SHIP PROGRAM

Berco's Quick Ship Program is designed to meet the requirements of an "immediate demand" table. Berco utilizes its Sense tables for the Quick Ship program.

Table Pedestal Specifications
Finish: Available in black wrinkle powder coat finish.

Glides and Casters: All tables are equipped with 1" diameter stainless steel, rubber cushioned glides with 1 " long stem secured with full threaded rivets to maintain stability. Optional casters available at an additional charge.

## Stationary Table Pedestals

Constructed of 2" 14 gauge, steel tubing with welded end caps. Factory welded $.2^{\prime \prime}$ thick, $6^{\prime \prime} \times 8^{\prime \prime}$ steel mounting plate. The column and base are welded together at the factory. End bases are shipped assembled, cross bases require simple assembly.

Quick Ship Program Details

- Tables ship within 15 working days of order confirmation.
- Up to 30 tables shipped to any single shipping address.

Quick Ship Laminate Choices:

- Graphite Nebula 4623-60
- Grey Nebula 4622-60
- Wild Cherry 7054-60
- Designer White D354-60
- Desert Zephyr 4841-60

Quick Ship Edge Choices (3mm PVC only):

- E02 Raincloud
- E06 Graphite
- E10 Ebony
- E11 Snow
- E13 Wild Cherry

Quick Ship Base Color:

- T05 Black Wrinkle

Quick Ship Table Sizes:

- Square: 36 " $\times 36^{\prime \prime} / 42$ " $\times 42^{\prime \prime}$
- Round: 36 " / 42"
- Rectangle: 24 " $\times 48^{\prime \prime} / 24^{\prime \prime} \times 60^{\prime \prime} / 24^{\prime \prime} \times 72^{\prime \prime} / 30^{\prime \prime} \times 48^{\prime \prime} / 30^{\prime \prime} \times 60 " / 30 " \times 72^{\prime \prime} / 36^{\prime \prime} \times 48^{\prime \prime} / 36^{\prime \prime} \times 60^{\prime \prime} / 36^{\prime \prime} \times 72^{\prime \prime}$

## Program Details

Tables ship within 15 working days of order confirmation．
Up to 30 tables shipped to any single shipping address．

## SENSE

Sense tables are designed to meet the opportunities where a "bid to win" product is needed. Its simple look, limited options and colors, and rugged construction, make it the perfect choice when basic tables are required.

Table Pedestal Specifications
Finishes: Available in 5 standard wrinkle powder coat finishes.

Glides and Casters: All tables are equipped with 1" diameter stainless steel, rubber cushioned glides with 1 " long stem secured with full threaded rivets to maintain stability. Optional styles of glides and casters available at an additional charge.

Stationary Table Pedestals
Constructed of 2" 14 gauge, steel tubing with welded end caps. Factory welded. $2^{\prime \prime}$ thick, $6^{\prime \prime} \times 8^{\prime \prime}$ steel mounting plate. The column and base are welded together at the factory. End bases are shipped assembled, cross bases require simple assembly.

## Sense Folding Table Leg Specifications

Our patented spring loaded folding mechanism is fully riveted to a steel mounting plate. Vinyl bumpers are integrated into the mechanism allowing for a non-marring, 3-1/2" stacking height. Equipped with molded release handle and integral catch that holds leg in folded position. Folding legs are constructed of welded, rolled steel tubing with MIG welded end caps, polished for seamless appearance.

## Sense Table Options

There are several options available on Sense including:

- Nesting
- Folding
- Flip Top
- Special Height

## SENSE BASE SPECIFICATIONS

SENSE TABLES - (LAMINATE - PVC EDGE)

## STARFIRE

## STARFIRE

Starfire Tables with cast iron pedestals offer Berco's classic styling and are ideally suited for education and dining environments.

Table Pedestals Specifications
Finishes: Available in 5 powder coat wrinkle finishes. Our unique mechanical construction enables a flawless seam when mixing column finishes with any base finish.

Glides and Casters: All tables are equipped with $1^{\prime \prime}$ diameter stainless steel, rubber cushioned glides with $1 / 2^{\prime \prime}$ long stem. Optional styles of glides and casters available at an up charge.

Columns: 2" diameter (14 gauge) and 3" diameter (16 gauge) columns constructed from flash controlled tubing.
Base Plate: All cast iron base plates are surface ground and machined for column recess, guaranteeing uniform height and wobble-free tables. Each casting is drilled and tapped for adjustable glides.

Spiders (Top Plates): All pedestals come standard with either a $10^{\prime \prime}$ or $15^{\prime \prime}$ cast spider, machined for column recess to insure levelness. Each spider is finished using recycled powder coat paint.

## Starfire Table Options

There are several options available on Starfire including:

- Nesting
- Folding
- Flip Top
- Special Height
- Center Mount Electrical Column

## TELESTO

## TELESTO

Our Telesto Table System is a complete family of tables solely developed by Berco's designers and engineers with the goal of aesthetics, quality and value contributing to the finished product.

Table Pedestal Specifications
Finishes: Offered in Standard Textured powder coat finishes. Our unique mechanical construction creates a flawless seam when matching column finishes with any base finish.

Glides and Casters: All tables are equipped with 2" diameter glides with brushed stainless steel cover over black plastic, 10 mm threaded with 15 mm long stem. The glide is suitable for carpet as well hard floors. Our twin wheel locking casters are offered as an option.

## Pedestal Specifications

Fixed end base pedestals feature an aluminum column and spider support with die-cast aluminum base and are attached with (2) $3 / 8^{\prime \prime}-18$ threaded steel rod and flange nut at $35 \mathrm{ft} / \mathrm{lbs}$ torque.

## Folding mechanism

Our patented spring loaded folding mechanism is fully riveted to a steel mounting plate. Vinyl bumpers are integrated into the mechanism allowing for a non-marring, 3-1/2" stacking height. Equipped with molded release handle. Integral catch holds leg in folded position. Folding legs feature the same column housing as Telesto stationary tables attached to Berco's patented mechanism.

Telesto Table Options
There are several options available on Telesto including:

- Nesting
- Folding
- Special Height

## TITAN

## TITAN

Titan Tables are manufactured with Berco's goal of quality and value and are ideally suited for use in a myriad of settings including corporate training rooms, cafeterias, educational settings and healthcare environments. Your choice of options make our Titan tables adapt to your specific requirements.

## Table Pedestal Specifications

Finishes: Available in 40+ standard powder coat finishes. Chrome plated finishes are offered at an additional charge. Our unique mechanical construction enables a flawless seam when mixing column finishes with any base finish. Custom finishes available. Please contact Customer Service for quotation.

Glides and Casters: All tables are equipped with 2" diameter glides with brushed stainless steel cover over black plastic foot. The stem is M10 and 15 mm long. The glide is suitable for carpet, as well as hard floors. Our high quality twin wheel locking casters are offered as an option.

## Titan Folding Table Leg Specifications

Our patented spring loaded folding mechanism is fully riveted to a steel mounting plate. Vinyl bumpers are integrated into the mechanism allowing for a non-marring, $3-1 / 2^{\prime \prime}$ stacking height. Equipped with a molded release handle and an integral catch holds leg in folded position.

## VORTEX

## VORTEX

A powerful swirl of beauty and grace come together in the trumpet-shaped Vortex. Perfect for dining facilities or meeting rooms, Vortex adds a timeless, elegant look to your space. Vortex tables bases are made of spun steel with a base weight for added stability.

Pedestal Specifications:
Finishes: Available in 40+ standard powder coat finishes. Chrome plated finishes are offered at an additional charge. Our unique mechanical construction enables a flawless seam when mixing column finishes with any base finish. Custom finishes available. Please contact Customer Service for quotation.

Glides and Casters: Not available on $18^{\prime \prime}$ and $24^{\prime \prime}$ base sizes. On 30 " bases glides are included. Casters NOT available on any size base.

## Pedestal Specifications

Trumpet-shaped base features 14 gauge (.083) spun steel with a specially designed weight for maximum stability. 2" columns are 14 gauge and $3^{\prime \prime}$ columns are 16 gauge. All columns are rolled steel tubing square cut to insure levelness. Cast iron spiders are machined for column recess and bolted with $1 / 2{ }^{\prime \prime}-13$ steel threaded rod.

## Vortex Table Options

There are several options available on Vortex including:

- Flip Top
- Special Height

## VOYAGER

## VOYAGER

Voyager tables are manufactured with Berco's goal of quality and value and ideally suited for use in a myriad of settings including corporate training rooms, cafeterias, educational settings and healthcare environments. Your choice of options make our Voyager tables adapt to your specific requirements.

TABLE PEDESTAL SPECIFICATIONS
Finishes: Available in 40+ standard powder coat finishes. Chrome plated finishes are offered at an additional charge. Our unique mechanical construction enables a flawless seam when mixing column finishes with any base finish. Custom finishes available. Please contact Customer Service for quotation.

Glides and Casters: All tables are equipped with $1^{\prime \prime}$ diameter stainless steel, rubber cushioned glides with 1 " long stem secured with full threaded rivets to maintain stability. Optional styles of glides and casters available at an additional charge.

Stationary VS1 Table Pedestals and VS2 (for tops 42" and 60" wide) Table Pedestals
Constructed of 2" 14 gauge, steel tubing with MIG welded end caps polished for a seamless appearance. Smaller pedestals equipped with powder coated $10^{\prime \prime}$ locking cast spider; larger pedestals equipped with $15^{\prime \prime}$ cast spider, machined for column recess to insure levelness. 2" diameter (14 gauge) and $3^{\prime \prime}$ diameter ( 16 gauge) columns constructed from welded, flash controlled tubing. Factory assembled with $1 / 2^{\prime \prime}-13$ threaded steel rod and flange nut at $60 \mathrm{ft} / \mathrm{lb}$ torque. Shipped fully assembled.

Stationary VS2 Table End Base Pedestals (for tops 18" to $36^{\prime \prime}$ wide)
These double column stationary tables are designed to match Voyager folding tables, $18^{\prime \prime}$ to 36 " wide. Bases are constructed of 1-1/2" (14 gauge) welded steel tubing with MIG welded end caps, polished for a seamless appearance welded to $6^{\prime \prime} \times 8^{\prime \prime}$ mounting plate. Columns are 1-1/4" diameter (16 gauge) welded, cold rolled, flash controlled tubing. Packaged in pairs and shipped fully assembled.

## Voyager Folding Table Leg Specifications

Our patented spring loaded folding mechanism is fully riveted to a steel mounting plate. Vinyl bumpers are integrated into the mechanism allowing for a non-marring, $3-1 / 2^{\prime \prime}$ stacking height. Equipped with molded release handle, integral catch holds leg in folded position. Folding legs are constructed of welded, cold rolled steel tubing with MIG welded end caps, polished for seamless appearance. Columns are permanently bolted to the base for a seamless appearance and fully TIG welded to the folding mechanism.

VS2 Fold: Folding tubular legs complement the VS2 Double Column End Base Pedestals and are constructed with 1-1/2", 14 gauge steel tubing. Columns are 1-1/4" diameter, 16 gauge, steel tubing.
VS1 Fold: Folding tubular legs are designed to match the VS1 Single Column End Base Pedestals, constructed of 2" diameter 14 gauge steel tubing. The column is $2^{\prime \prime}$ diameter, 14 gauge steel tubing.

## Voyager Table Options

There are several options available on Voyager including:

- Nesting
- Folding
- Flip Top
- Adjustable Height
- Special Height
- Angle Base
- Offset Base
- Center Mount Electrical Column

## VOYAGER PREMIUM SOLID STEEL

Voyager Premium Solid Steel tables were developed to offer you Quality and Styling. Bases of the pedestal are made of Solid Steel to allow the ultimate in base foundation with unparalleled durability.

## TABLE PEDESTAL SPECIFICATIONS

Finishes: Available in 40+ standard powder coat finishes. Chrome plated finishes are offered at an additional charge. Our unique mechanical construction enables a flawless seam when mixing column finishes with any base finish. Custom finishes available. Please contact Customer Service for quotation.

Glides and Casters: All tables are equipped with 1 " diameter stainless steel, rubber cushioned glides with $1 / 2^{\prime \prime}$ long stem fully threaded into solid steel base. Optional styles of glides and casters available at an additional charge.

Voyager Premium Solid Steel Pedestals
Base constructed of 2" diameter solid steel, fully MIG welded for maximum support. Smaller pedestals equipped with powder coated 10" locking cast spider; larger pedestals equipped with 15" cast spider, machined for column recess to insure levelness. $2^{\prime \prime}$ diameter ( 14 gauge) and $3^{\prime \prime}$ diameter ( 16 gauge) columns constructed from welded tubing. Factory assembled with $1 / 2^{\prime \prime}-13$ threaded steel rod and flange nut at $60 \mathrm{ft} / \mathrm{lb}$ torque. Square ends on all bases.
Voyager Premium Solid Steel Pedestals compliment our Voyager Folding Tables and Titan single folding leg.

Voyager Premium Solid Steel Table Options
There are several options available on Voyager Premium Solid Steel including:

- Nesting
- Flip Top
- Special Height
- Center Mount Electrical Column

## VOLUMA

## iQ and VOLUMA CONFERENCE TABLES

iQ Conference Tables are designed to complement the iQ Training Table line with a full series of conference tables utilizing the award winning leg design to enhance any space.

## Table Pedestal Specifications

Finishes: Over 40+ powder coat finishes are offered to allow you to create the look you want in your space.
Glides and Casters: All tables are equipped with 2" diameter glides with brushed stainless steel cover over black plastic foot. The stem is M 10 and 15 mm long. The glide is suitable for carpet, as well as hard floors. Our high quality twin wheel locking casters are offered as an option.

Pedestal Specifications: The column is made of extruded aluminum in an oval shape that is $2^{\prime \prime} \times 63 / 4$ " with an aluminum bottom plate and a Cast Aluminum Spider that is $5^{\prime \prime} \times 9^{\prime \prime}$ that are attached with (2) $3 / 8^{\prime \prime}-18$ threaded steel rod and flange nuts at $35 \mathrm{ft} / \mathrm{lbs}$ torque. With 6 wood screws to attach the spider to the conference table top the base has a standard overall height of $273 / 4^{\prime \prime}$.

The Voluma series of conference tables provide tremendous options and designs for any conference room environment.

## Base Specifications

Finishes: Available in any standard laminate or veneer.

Glides: Adjustable 1" diameter stainless steel, stem is $1 / 4^{\prime \prime}-20 \times 1^{\prime \prime}$.
Specifications: Constructed using a combination of high grade particleboard and plywood, and can be covered with high pressure laminate or wood veneer which is book matched and finished without visible joinery. The bases may have 1 or 2 seams depending on the size of the base. In addition, there is a $3 / 4^{\prime \prime}$ MDF mounting plate to attach the base to the conference table top with 6 wood screws per base. Options include a variety of grommet or access doors to allow ease of wiring for electrical and data.

Ballast: Pedastals are shipped without ballast. Customer is responsible for adding if necessary.

iO CONFERENCE TABLES - (VENEE

## WEST END

## WEST END

With its rugged industrial look, the WEST END series table adds a new dimension to the parsons or community style table. Available in $30^{\prime \prime}, 36^{\prime \prime}$ or $42^{\prime \prime}$ heights and lengths up to $120^{\prime \prime}$ as standard you have plenty of size options to choose from. Or if our standard dimensions don't quite work, we will make one to your specifications. Standard top options for this series are laminate or butcherblock, but we can also make your top in other materials like solid surface, veneer, stone, or other materials.

## Table Pedestal Specifications:

Finishes: Available in over 40+ standard powder coat finishes

## Table Specifications:

Construction: Each end base is made of two 2" x $2^{\prime \prime}$ steel uprights joined together by a $1.5^{\prime \prime \times 1.5 " \text { joiner }}$ bar all welded together and comprised of 14 gauge cold rolled tube. At the top of the base is a 4 " $\times 4^{\prime \prime} \times$ $1 / 8^{\prime \prime}$ thick top plate to attach the base to your top.
For additional structural support all tables include a cross bar that attaches the lower portion of each base to one another.

Overhang of tops: For tops up to $72^{\prime \prime}$ in length, there is a minimal overhang of approximately 6 inches from the base upright.

On an $84^{\prime \prime}$ top there is a $12^{\prime \prime}$ overhang, and on $96^{\prime \prime}$ tops there is a $18^{\prime \prime}$ overhang. $120^{\prime \prime}$ tops have 3 legs.
Table stiffeners are supplied where needed based on the length of the top and are included in the list price of the table.

Glides and Casters: All tables are equipped with leveling glides as standard, locking casters are available as an option.

## TABLE OPTIONS

## GLIDE \& CASTER SPECIFICATIONS

1" diameter with $1 / 4^{\prime \prime}$-20 stem. Base of glide is stainless steel over plastic. Moves easily over flooring and carpet. Not available on iQ Plus or Telesto.
iQ Plus Glide

2" diameter glide with brushed stainless steel cover over black $A B S$ plastic foot. The stem is 15 mm long to provide adjustability for uneven floors and works well for either carpet or flooring. Only available on iQ Plus, Telesto, AnyWay, and Mobi.

## Equalizer Glide

This table glide is designed to automatically adjust itself in height thereby eliminating table wobble due to uneven flooring. This glide is made of high impact thermoplastic. It features in internal steel spring as well as a $1 / 4^{\prime \prime}-20 \times 1 / 2^{\prime \prime}$ stem. Raises height of base by approximately $1 / 4^{\prime \prime}$. Not available on: AnyWay; iQ Plus; Discus; Mobi; Telesto; Titan.

## Deluxe Casters

65 mm Black/Grey twin wheel locking caster. Stem size is 10 mm . When ordering, specify overall height of pedestal.

## OPTIONS-GROMMETS

Berco offers 2 standard types of grommets. Please specify rectangular (GRR) or round (GRD). Rectangular grommets are $1-5 / 8^{\prime \prime} \times 3-1 / 2^{\prime \prime}$ I.D. in black. Round grommets are 2-3/8" I.D. in black.

Berco offers 4 standard grommet locations. For other locations, please include a sketch or drawing.

GRR1 or GRD1 - 1 grommet in enter of table:

GRR2 or GRD2 - 1 grommet at back of table in center:

GRR3 or GRD3 - 2 grommets at back of table:

GRR4 or GRD4 - 3 grommets at the back of the table:

## MODESTY PANEL SPECIFICATIONS

Berco offers a variety of Modesty Panel options depending on your design, layout, and budget requirements.
Removable (MPR) - This modesty panel is constructed of $3 / 8^{\prime \prime}$ particleboard with laminate on front and back and a pvc edge. It is attached to the table top using a metal hanger that is riveted into the modesty panel and then mechanically hooks onto a u shaped bracket under the table top. There is a sliding access point on the metal hanger that allows you to remove the modesty from the table top whenever you desire.

Fabric (MPF) - Designed with a combination of mesh and fabric, this modesty is designed to give the tables a lighter looking scale along with introducing a different material (fabric) for your space. The construction is of two steel rods on the top and bottom of the modesty (makes them hang straight without wrinkles) with the fabric and mesh sewn onto these rods. There are Velcro fasteners on the backside of the modesty that allow you to open it up and run cables through the modesty. This is the only modesty panel option that can be used on the Mobi nesting tables (due to the curve of the Mobi leg).

Slim (MPS) - Offered as our starting price point modesty panel, our slim modesty is comprised of a thin hardboard material that is laminated on the front and back and attached to the tables using small plastic hinges that allow the modesty to hang straight, but also allow it to swing out of the way if kicked or bumped.

Metal (MMP) - This modesty panel is made of metal and offered in any of our 40+ powder coat finishes, it attaches directly to the underside of the table top for a rigid connection, because of this connection you cannot use the metal modesty on nesting style tables.

Metal Channel (MMC) - Used in conjunction with the Metal Modesty panel, this unit attaches with the Metal Modesty under the table top and allows a channel for wire management.

Acrylic (MPA) - Designed to give your space some interest and color, this modesty is made of 100\% Acrylic Resin, that is a tough and durable material that is resistant to scratching and staining. It attaches to the underside of the table top using small plastic hinges that allow it to hang straight but it can swing if bumped. In addition to offering this modesty in 7 standard colors, you can choose any Benjamin Moore paint color for these modesty panels at no additional charge. The Economy Frosted Modesty is constructed of a lighter weight plastic material that is durable, but only available in a clear frosted version.

Integrated Metal (MPI) - This metal modesty combines a built in U channel with a modesty to allow wire management that is built into the modesty. Offered in our 40+ powder coat finishes, it also attached directly to the underside of the table top for a rigid connection and therefore cannot be used with nesting style tables.

## MODESTY PANELS

YOS

## ELECTRICAL SPECIFICATIONS

With plenty of options to choose from, whether you are connecting training tables or just need a conference table with some outlets on top, we have your solution. Don't see exactly what you are looking for, call us, we will find your solution.

Villa Connectable Table Kits: This system with the "No Particular Order" wiring allows you to configure your tables in any order and connect them with a simple male to female connector and are ordered in kits that match your table top size. This unit can come with either 2 outlets only or 2 outlets and 2 data ports and either a silver or black metal grommet cover, and can be either a single circuit with standard plug in or hardwire for a 2 circuit capability. Dimension of grommet is $3^{\prime \prime} \times 5 \frac{1 / 4 \prime}{\prime \prime}$.

Villa Corded Units: Available with your choice of $36^{\prime \prime}$, $72^{\prime \prime}$, or $108^{\prime \prime}$ cord length and either a silver or black metal grommet cover. Dimension of grommet is $3^{\prime \prime} \times 5 \frac{1 / 4 "}{}{ }^{\prime \prime}$.

Miniport: This is a power data unit that has 2 power outlets and 2 data outlets with a $72^{\prime \prime}$ cord length and is standard in a black plastic (other colors are available). Dimension of unit is $3^{\prime \prime} \times 7^{\prime \prime}$.

Interport: Designed to accommodate those extra cords from your laptop by having a secondary lid that you open and place all your excess cords into the opening and letting them drop down below the table top. It also comes with 2 power outlets and 2 data outlets with a $72^{\prime \prime}$ cord length and is standard in a black plastic. Dimension of unit is $5^{\prime \prime} \times 7^{\prime \prime}$.

Power/Data Sphere: Contains 2 power outlets and 2 data outlets with a $72^{\prime \prime}$ cord length and is standard in a black plastic. Dimension of unit is $31 / 2^{\prime \prime}$ diameter.

MHO: Contains 2 power outlets and 2 data outlets with a $72^{\prime \prime}$ cord length and is standard with an aluminum grommet. Dimension of unit is $47 / 16^{\prime \prime} \times 85 / 8^{\prime \prime}$.

## Powernet Electrical and Modesty

Designed to accommodate training tables that require substantial electrical and data capacity, along with ease of access, the Powernet system can be utilized on almost any table series from Berco.

Specifications: Constructed of extruded aluminum the Powernet Modesty is $81 / 4^{\prime \prime}$ tall and matches the length of the table top. The Channel version has an extruded aluminum channel that is $3^{\prime \prime}$ tall by $31 / 4^{\prime}$ deep to accommodate large amounts of electrical and data. The Powernet Raceway includes a fully enclosed steel box that contains all necessary electrical and data along with a hinged door to allow easy access for wiring or plugging in technology.

Finishes: Modesty panel available in over 40+ powder coat finishes

Electrical: Designed to handle any intense electrification needs, the powernet electrical system is an 8 wire, 4 circuit system. You can choose to configure it as a simple 15 AMP single circuit with a conventional plug to power up, a 20 AMP specialized plug in, or a hardwire infeed that can utilize up to all four separate circuits.

## VILLA ELECTRICAL SPECIFICATIONS

## VILLA ELECTRICALSYSTEM - SPECIFICATIONS/PRICING

## Single Circuit

- Provides maximum flexibility for rooms with limited electrical needs (i.e. Small Work Area, Conference Room, etc.)
- A maximum of 6 electrical units can be linked on 1 circuit grid

Example 1

## Double Circuit

- Used in rooms with greater electrical needs (i.e. Class Room, Training Room, etc.)
- A maximum of 12 electrical units can be linked on 1 double circuit in feed
- Using a Double Circuit requires the circuits to be assigned to alternating tables, as shown:

The "No Particular Order" Electrical System
Villa's non-directional, non-sequential electrical package allows nearly any table layout you desire. The order of the tables is not limited by single or double circuit. Tables may be reconfigured by simply disconnecting from the power source and reconnecting in a new configuration.

Non-Directional - Wall or floor power in-feed cables can be attached to either end of the table confiquration.

Non-Sequential - Table order isn't a concern with Villa's electrical system.

Example 1

Example 2

## Single and Double Circuit Options

- Quick disconnect wall outlet
- Hard wiring from wall
- Power source from the building must be wired for 2 circuits to handle a double circuit option

## Double Circuit

- The electrical system is a four wire system consisting of two individual circuits. Each circuit is rated at $20 \mathrm{amps} / 120$ volts maximum. Circuit 1 (black), and Circuit 2 (red) are served by a system neutral (white) and an equipment ground (green). Please check with local codes before connecting to building.

## ELECTRICAL SPECIFICATIONS

## ELECTRICAL SPECIFICATIONS

## ELECTRICAL SPECIFICATIONS

## POWERNET SPECIFICATIONS

## PowerNet tables with PowerNet Electrification

PowerNet tables are available with an 8-wire distribution system with up to four 20 amp circuits in a hardwire system or 15 amp or 20 amp single circuit systems. The hardwire system is supplied with an orange receptacle that is a dedicated circuit with its own neutral and ground wire. The single circuit systems work with standard 15 or 20 amp receptacles.

The wiring system has eight conductors. Three of the conductors - circuit wire, neutral wire, and an isolated ground wire - are shielded and dedicated for computer use. The other five conductors are three circuits with a shared neutral and equipment ground for convenience receptacles. All conductors are No. 12 A.W.G. except the shared neutral, which is No. 10 A.W.G.

## 15 Amp Power Modules

## Primary

15 amp primary single circuit power feed for 60 ", 72 ", 84 " and 96 " tables.

15 amp primary single circuit power feed for 48 " tables. Our 48 " tables have 3 electrical receptacles to service one workstation.

Power jumper modules consist of the same wiring as the in-feed, provide power for multi table configurations, and are easily connected and disconnected. Generous lengths of jumpers are provided to maximize configuration flexibility.

Berco recommends consulting a licensed electrician for circuit requirements.

15 amp power jumper module for secondary tables.

15 amp power jumper module for 48 " secondary tables. Our 48 " tables have 3 electrical receptacles to service one workstation.

## 20 Amp Power Modules

Note the special orientation of the 20 amp plug.

## POWERNET SPECIFICATIONS

## PowerNet 20 Amp Hardwire Power Modules

PowerNet 20 amp hardwire systems feature modular snap-in receptacles. The modules can be arranged in numerous configurations to fit specific requirements. Berco recommends consulting a licensed electrician for circuit requirements.

## Specifying a 20 Amp Hardwire System

This is an example of how a 20 amp hardwire system may be configured. Circuit receptacles 1-4 may be put in any position. All receptacles snap in and out for ease of configuration.

20 amp hardwire power feed. 48 " tables have 3 electrical receptacles to service one workstation.

## 

20 amp hardwire power jumper. 48 " tables have
3 electrical receptacles to service one workstation.
Please specify Primary or Secondary.

## PowerNet Data Communication Options - Please specify one

PowerNet tables can be ordered with data communication receptacles. We offer five different brands shown at right. The diagrams indicate the number and type of receptacles. The combination of RJ11 and RJ45 receptacles may be changed to meet your requirements. All RJ45 receptacles are CAT 5e rated.

## UPHOLSTERED BOOTHS

## UPHOLSTERED BOOTH SPECIFICATIONS

## UPHOLSTERED BOOTH SPECIFICATIONS

When it comes to upholstered booths, the options are limitless. Berco offers every imaginable upholstery option, and if you don't see what you are looking for in our standard collection, chances are our Customer Service team can find a solution to meet your specific needs.

Standard booths can be made to special sizes, angles, trim, cutouts, seats, special sewing, etc. We welcome all special requests. All circles and wall benches are standard with unfinished outside backs. Please specify if you would like a finished outside back. When circles, wall benches, curvettes or any specials are ordered, please send along a Plan with dimensions written in. Berco can also help you design to your specifications. Our Customer Service staff will assist you in meeting your customer's specific needs.

## Booth Components

Booth Components

Pricing For Wall Benches

## Angled Wall Bench

Total feet of sides A, B and C multiplied by the per foot price. PLUS 2 angled mitered corners equals total price. Price of finished outside backs (where required) must be added.

## Corner Wall Bench

Total feet of sides A and B multiplied by the per foot price. PLUS 1 corner equals total price. of finished outside backs (where required) must be added.

## Typical Booth Arrangement

Our booths are designed to accommodate any size and configuration you desire. As a guide for arrangement, you can reference the following drawings which allow for a 30 " wide table. The style of the booth and inside back style can affect the dimension from the table top to the inside back. Use dimensions for reference only.

UPHOLSTERED BOOTHS

## Upholstery Choices

Booth pricing includes Berco standard as well as graded-in upholstery. Standard upholstery colors are shown on following pages. For all other upholstery options, Customer Service will be happy to provide a custom quote.

## Vinyl \& Fabric Options

Berco can supply almost any vinyl or fabric on the market. Please consult your Customer Service Representative for a custom quote. Vinyl specifications and samples can be found at www.spradlingvinyl.com. Fabric specifications and samples can be found at www.mayerfabrics.com. See Finish Specifications section for more details.

## UPHOLSTERED BOOTH SPECIFICATIONS

## Customer Own Material (C.O.M.)

1. All orders using COM, prior to order, must submit upholstery details such as pattern, repeat and if it is a Railroaded pattern to customer service to determine yardage needed.
2. Standard booth pricing includes C.O.M.
3. Material that is directional or striped, must specify the details concerning how it is to be applied.
4. If material is or can be reversible, be certain to mark the proper side.
5. Supply your shipper of the C.O.M. with the following information to be attached to the outside of the package containing your C.O.M.:

Berco Furniture Solutions - Shipping \& Receiving
3700 Cleon Street
St. Louis, MO 63118

Upholstery Cleaning and Maintenance
General Care and Cleaning Guide:

Step 1: For light soiling, a solution of $10 \%$ household liquid dishsoap in warm water, applied with a soft damp cloth. Rinse with clean water and dry.

Step 2: For heavy soiling, dampen a soft white cloth with a one to one (1:1) solution of Fantastik $®$ and water or Formula $409 ®$ and water. Rub gently and rinse with a water dampened cloth.

Step 3: For more difficult stains, dampen a soft white cloth with a solution of household bleach (10\% bleach / 90\% water). Rub gently and rinse with a water dampened cloth to remove bleach concentration. Do not use with alcohol based cleaning agents!

## LOUNGE SEATING

## COLLABORATIVE

## PLATFORM

## PLATFORM

The Platform product was created to solve the challenges of today's gathering spaces. Whether you choose to sit in solitude with a certain level of privacy or sit together in a communal lounge setting, Platform helps to meet these needs by offering comfort, connectivity, and privacy. The metal frame elevates the platform and provides a strong base but with a light scale aesthetic.

FRAME CONSTRUCTION:
The frame assembly is comprised of multi-ply hardwood with a dado and tenon construction. All cushions are made of multidensity foam to provide exceptional comfort and durability that is covered with a high slip polyethelene to keep the foam from breaking down with wear and then covered with the upholstery of your choice. The seat and back cushions are mechanically attached to the plinth (Platform) base and can be changed and interchanged with other pieces including table tops for the seat cushions.

## METAL FRAME CONSTRUCTION:

The metal frame is comprised of $1-1 / 4^{\prime \prime}$ square tube welded together then polished to provide a clean aesthetic, and finished in any of our standard powder coats.

## TOPS AND BACK PANELS:

The table tops for the end, coffee, and stand up tables and back privacy panel are constructed of either 3/4" MDF or particleboard material and covered in either a laminate with pvc or self edge or painted with our Krycoat painted material.

## PLINTH BASE (PLATFORM):

The Platform base is constructed of multi-ply hardwood and finished in one of 6 Krycoat paint finishes to provide a tough durable finish to stand up over time.

## CORE SEATING

## CORE SEATING

Designed with the collaborative space in mind, the Core seating line is a natural complement to our Core Table series. It offers an extensive array of options to configure your space however best fits your needs.

Construction Specifications: Based on the similar principals as our Core Table the essence of this product starts with the steel under structure comprised of a $2^{\prime \prime} \times 2^{\prime \prime}$ cold rolled steel unit welded into one solid piece to give this seating product the strength required to hold up over time. $1^{\prime \prime}$ thick laminated end panels are attached to the frame, and the top component is a 1 " thick laminated top attached to the end panels and frame, but still keeping the $3 / 16^{\prime \prime}$ reveal on the sides.

For seat and back cushions we use multi-density foam that is upholstered, the back for this unit is comprised of a wooden structure that slides over $1 \frac{1}{4}$ " steel tubes that are bolted to the frame.

## MEZZANINE

## MEZZANINE

Designed for today's collaborative spaces, the Mezzanine collection is a series of chairs, sofas, benches, tables, and modular components to allow your creativity to make a space the way you want it. Based on a Tuxedo Lounge design but with the added benefit of a softer feel and sit to make it a more userfriendly product, Mezzanine is your product of choice.

## KEY FEATURES

- $60^{\prime \prime}$ and $90^{\prime \prime}$ sofas available in high back ( $48^{\prime \prime}$ high) and low back ( $251 / 2^{\prime \prime}$ high) versions.
- High back pieces available with a long arm for greater privacy or a short arm for more social interaction.
- $60^{\prime \prime}$ and $90^{\prime \prime}$ benches and a $32^{\prime \prime}$ lounge chair complete the upholstered collection.
- 1-arm, armless, and corner pieces available to create modular arrangements.
- $1^{\prime \prime} \times 1^{\prime \prime}$ square tube legs with adjustable glides, welded to a flat steel connecting plate. Base available in any standard powder coat finish. Construction method allows for 90 " span with no center support.
- Frame construction made of multi-ply hardwood and particle board. Completely finished bottom panel makes Mezzanine suitable for high end applications.
- Multi-density foam construction for a softer sit. Performance Edge foam added for added comfort and superior durability.
- Throw pillows add a residential feel and allow for a punch of color or pattern. Throw pillows are permanently attached with straps discreetly connected to the bottom of the unit.
- Occasional tables available in glass, solid surface, and laminate as standard with the same 1 " $x$ $1^{\prime \prime}$ square tube construction. Glass tops are $1 / 2^{\prime \prime}$ thick tempered, low iron glass with flat polished edges and an eased $1 / 16^{\prime \prime}$ bevel on top and bottom edges as well as corners.

## UPHOLSTERY

- Pricing of upholstered pieces includes fabrics up to Grade 2. Fabric for seat cushion, back + arms, and/or throw pillows can be upgraded. See price guide for fabric upcharges for each component.
- Polyurethane material is not appropriate for the seat of this unit.
- Corner pieces include 1 throw pillow positioned on a diagonal as standard.
- Throw pillows on 1-arm and armless pieces will be shorter (1-2") than the length of the seat.

## COM UPHOLSTERY

- For COM orders, please verify with Customer Service that the material chosen is appropriate to be used on this product.
- Polyurethane material is not appropriate for the seat of this unit.
- See specific model number in price guide for COM requirements and pricing adjustments.
- Note: Yardage amounts are based on use of 54 " wide, non-directional/non-railroaded fabric.

## MEDIA WALLS

## MEDIA WALL

The media wall is designed for those collaborative areas where you need access to technology to work in a group setting. It is designed to coordinate with a variety of our other table products for a cohesive look.

## Media Wall Specifications:

The media wall is constructed of 48\# particleboard material in multiple layers to a $214^{\prime \prime}$ thickness with a grommet in the upper section to drop cords down from the monitor to connect your technology. There is a built-in raceway channel in the wall for the cord drop and there is an access door and grommet on the wall under the table top to allow access to connections. In addition, there are two $L$ shaped brackets that are part of the wall to attach under the table for support. You have three standard options of table top styles from half round, wedge, or rectangular, along with a variety of bases to support the end opposite the wall.
The standard wall sizes available are $48^{\prime \prime}$ and $60^{\prime \prime}$ width and $66^{\prime \prime}$ and $78^{\prime \prime}$ height to accommodate both seated and standing height work. The wall is available in any standard laminate.

## HOSPITALITY

## METAL CHAIRS \& BAR STOOLS

# Metal Chairs \& Bar Stools 

## Specifications

Berco metal chairs are made to exacting standards to provide the durability necessary for hospitality use. We offer a broad selection of designs that can be customized with different color finishes, and unlimited upholstery choices. All metal chairs are made from 16/18 gauge steel and come with Berco's 5 year limited warranty.

Upholstery Seat Options
When it comes to upholstered chairs, the options are limitless. Berco offers every imaginable upholstery option, and if you don't see what you are looking for in our standard collection, chances are our Customer Service team can find a solution to meet your specific needs. See "Standard" upholstery color choices in the Upholstered Booth section of this price list.

## Solid Oak Seat Options

Solid oak seats are available in $3 / 4$ " thickness. The standard stain colors can be found in the "Wood Chairs \& Bar Stools" section. We can custom match stain colors for an additional charge. (Note: Stain colors are for reference only. They appear different on a computer screen than on actual wood. Please request a stain sample for actual approval.)

## WOOD CHAIRS \& BAR STOOLS

## Wood Chairs \& Bar Stools

## Specifications

Berco wood chairs are made to exacting standards to provide the durability necessary for hospitality use. We offer a broad selection of designs that can be customized with different color finishes, and unlimited upholstery choices. All wood chairs come with a 5 year limited warranty.

## Upholstery Seat Options

When it comes to upholstered chairs, the options are limitless. Berco offers every imaginable upholstery option, and if you don't see what you are looking for in our standard collection, chances are our Customer Service team can find a solution to meet your specific needs. See "Standard" upholstery color choices in the Upholstered Booth section of this price list.

## Standard Stain Colors

Our standard stain colors are shown in the Finish Specifications section. We can custom match stain colors for an additional charge. (Note: Stain colors are for reference only. They appear different on a computer screen than on actual wood. Please request a stain sample for actual approval.)

# PARQUE 

Tables \& Chairs for Today's Outdoor Seating Needs
PRICE GUIDE

BERC두로

## PARQUE OUTDOOR FURNITURE

Parque furniture is designed with style, comfort, and durability for the outdoor environments. The unique construction materials used in Parque allow it to withstand virtually any weather conditions.

SEATING - Chair construction is made of $100 \%$ polypropylene for strength and durability. The chairs offered can stack to be stored out of the way and are available in a variety of colors. They are easily cleaned and are maintenance free, are lightweight to be moved around quickly, and can be used indoor and outdoor. They have a minimum weight capacity of 400 lbs .

TABLES - The tables are offered in 3 different styles of bases including a cross, disc, and square plate style in either a silver or black finish, and are finished in a coating that makes them usable in an outdoor space. The tops are available in two different materials either a Sun City or Werzalit product and both are specifically made for durability in outside use and come in a variety of colors. The Sun City is offered in 11 finishes, and the Werzalit in 4 finishes.

There are options for the table heights of either $30^{\prime \prime}$ or $42^{\prime \prime}$ and are offered in a number of sizes of round and square tops.

## PARQUE LADDERBACK CHAIRS

- Durable polypropylene material
- 4 Quick Ship colors ship same day from Chicago (Lime, Java, Gray, Mango)
- Custom colors available with 8 week lead time
- 70 standard Sunbrella Transcend Collection fabrics to choose from
- Stacks up to 5 high
- 500 lb . weight capacity

## STUDY CARRELS

## STUDY CARRELS

For those areas where you need more privacy for studying or testing, Berco offers our Study carrel option. These Carrels are designed as an add on option to your table once you have chosen and specified the table you want, then choose the corresponding Study Carrel size to go with the table. You can choose Starters (comprised of 2 sides and 1 back panel) and then Adders (comprised of 1 side and 1 back). Don't see the exact size or style you are looking for, call us; customizing these units is always available.

When ordering please keep in mind that the construction of these units are such that tables (or at least tops) must be ordered with them as there are structural components that are embedded into the table top to support the Carrel.

Specifications: Constructed of $3 / 4^{\prime \prime}$ core with laminate on both sides and PVC edge on exposed edges and includes all necessary hardware to attach together and to table top. Standard height is $18^{\prime \prime}$.

Finishes: Available in most standard laminates

## STUDY CARREL SPECIFICATIONS

## SEATING CHARTS - INDIVIDUAL TABLES

Square Tops

|  | Top | Chairs | Wheelchairs |
| :--- | :--- | :--- | :--- |
| Size |  |  |  |

Round Tops

Rectangular Tops

Racetrack, Boat and Oval Tops

Generally, these tops will accommodate the same approximate seating as the length of the table. These shapes are the most popular for conference seating and therefore length dimensions are given in feet. Widths generally vary from 30 " to 60 "

| Top <br> Size | Chairs | Wheelchairs |
| :--- | :---: | :---: |
|  |  |  |
| $6^{\prime}$ | 6 | 6 |
| $8^{\prime}$ | 8 | 6 |
| $10^{\prime}$ | 10 | 8 |
| $12^{\prime}$ | 12 | 8 |
| $14^{\prime}$ | 14 | 8 |
| $16^{\prime}$ | 16 | 10 |
| $18^{\prime}$ | 18 | 10 |
| $20^{\prime}$ | 18 | 10 |
| $22^{\prime}$ | 20 | 12 |
| $24^{\prime}$ | 22 | 12 |

This is only a guide. Seating may vary according to chair design and designer's layout. Always refer to local codes
Seating calculation - $30^{\prime \prime}$ minimum per chair and $36^{\prime \prime}$ minimum per wheelchair.
Cafeteria seating - minimum of 12 to 14 square feet for each seat. Office seating will vary.
Berco recommends a minimum of 42" space between table top edges and walls.

F

## SEATING CHARTS - TRAINING TABLES

## DESIGN DATA - STATIONARY PEDESTAL SPACING

## DESIGN DATA - STATIONARY PEDESTAL SPACING

Use two half cylinders for tops up 120 " in length. For tops longer than 120 " - add one or more full cylinders. For different size tables and placement of pedestals - consult Customer Service.

## DESIGN DATA - FOLDING LEG SPACING

| 48" Wide | 4.5 " | 57" |

## DESIGN DATA - iQ CONFERENCE LEGS

## Standard Leg

2 " x 6-3/4" oval, and constructed of $80 \%$ reclaimed, extruded aluminum.

## Wire Management Leg

Upgraded version with 2 knockouts to route electrical and data cables through channels in the leg.

## Removable Cover Leg

Optional version with a removable, black plastic insert to route electrical and data cables through the leg.

## DESIGN DATA - iQ CONFERENCE PEDESTAL SPACING

For proper placement do not allow more than 54" between pedestals.
For different sizes and placement of pedestals - consult Customer Service.

## DESIGN DATA - STANDARD SHAPE TOPS

For different shape tops - please provide dimensional drawings.
