

MEZZANINE

MEZZANINE

Designed for today's collaborative spaces, the Mezzanine collection is a series of chairs, sofas, benches, tables, and modular components to allow your creativity to make a space the way you want it. Based on a Tuxedo Lounge design but with the added benefit of a softer feel and sit to make it a more user-friendly product, Mezzanine is your product of choice.

KEY FEATURES

- 60" and 90" sofas available in high back (48" high) and low back (25 ½" high) versions.
- High back pieces available with a long arm for greater privacy or a short arm for more social interaction.
- 60" and 90" benches and a 32" lounge chair complete the upholstered collection.
- 1-arm, armless, and corner pieces available to create modular arrangements.
- 1" x 1" square tube legs with adjustable glides, welded to a flat steel connecting plate. Base available in any standard powder coat finish. Construction method allows for 90" span with no center support.
- Frame construction made of multi-ply hardwood and particle board. Completely finished bottom panel makes Mezzanine suitable for high end applications.
- Multi-density foam construction for a softer sit. Performance Edge foam added for added comfort and superior durability.
- Throw pillows add a residential feel and allow for a punch of color or pattern. Throw pillows are permanently attached with straps discreetly connected to the bottom of the unit.
- Occasional tables available in glass, solid surface, and laminate as standard with the same 1" x 1" square tube construction. Glass tops are ½" thick tempered, low iron glass with flat polished edges and an eased 1/16" bevel on top and bottom edges as well as corners.

UPHOLSTERY

- Pricing of upholstered pieces includes fabrics up to Grade 2. Fabric for seat cushion, back + arms, and/or throw pillows can be upgraded. See price guide for fabric upcharges for each component.
- Polyurethane material is not appropriate for the seat of this unit.
- Corner pieces include 1 throw pillow positioned on a diagonal as standard.
- Throw pillows on 1-arm and armless pieces will be shorter (1-2") than the length of the seat.

COM UPHOLSTERY

- For COM orders, please verify with Customer Service that the material chosen is appropriate to be used on this product.
- Polyurethane material is not appropriate for the seat of this unit.
- See specific model number in price guide for COM requirements and pricing adjustments.
- Note: Yardage amounts are based on use of 54" wide, non-directional/non-railroaded fabric.
