*Design, Printing, and Installation

1. We provide the sizing and print specifications to your graphic designer
2. You send us design files
3. We print and ship with your pod
4. Graphics must be installed on-site once the pod is fully assembled and leveled. This eliminates the risk of damage to the graphics during shipment, unpacking, and installation. In addition, in order for proper graphic/pattern matching between multiple glass panels, the pod must be assembled and leveled in your space before graphics are installed.
