

IQ PLUS

iQ PLUS

Our iQ Plus is developed solely with the goal of aesthetics, quality and value contributing to the finished product. iQ Plus tables can be configured to be one of the most environmentally friendly tables in our industry. This is achieved by using a laminated core top surface paired with pedestals of recycled aluminum.

Pedestal Specifications

Finishes: Over 40+ powder coat finishes are offered. Our unique mechanical construction creates a flawless seam when matching column finishes with any base finish. Plastic inner column cover finished in S10 Ebony.

Glides and Casters: All tables are equipped with 2" diameter glides with brushed stainless steel cover over black plastic foot. The stem is M10 and 15mm long. The glide is suitable for carpet, as well as hard floors. Our high quality twin wheel locking casters are offered as an option.

Pedestal Specifications: The foot is aluminum die casting. Column is extruded aluminum. Stationary pedestals feature an aluminum die cast spider support. The foot, column, spider or flip-top are attached together with (2) 3/8"-18 threaded steel rod and flange nuts at 35 ft/lbs torque.

Folding Mechanism: Our patented spring loaded folding mechanism is fully riveted to a steel mounting plate. Vinyl bumpers are integrated into the mechanism allowing for a non-marring, 3-1/2" stacking height. Equipped with molded release handle and an integral catch holds leg in folded position. Folding legs feature the same column housing as iQ stationary attached to Berco's patented folding mechanism.

iQ Plus Table Options

There are several options available on iQ Plus including:

- Folding
- Flip Top – iQ Plus uses a single-point-release bridge with 2 flip tops instead of a nesting structure (for rectangular tables only)
- Special Height
